Your Submitted Press Release

Singapore, 29th Apr 2026 – 3DP4ME, a US-based non-profit and innovative tech start-up operating in the Middle East, has announced the appointment of its inaugural Advisory Board. Selected through the **Veblen Director Programme**, the board brings expertise spanning healthcare policy, governance, behavioural health, commercialisation, transformation leadership, and advanced manufacturing. These appointments support 3DP4ME’s mission to reduce children’s suffering and accelerate healing in conflict-affected communities by delivering locally produced, high-quality healthcare solutions through 3D printing. 3DP4ME’s work has been recognised by the World Economic Forum and supported by industry leaders including Intel and Accenture.

*“3DP4ME exists to bring hope, light, and possibility into situations where families often feel out of options,” said **Jason Szolomaye**, Founder of 3DP4ME. “This Advisory Board strengthens our ability to scale responsibly, deepen clinical and operational excellence, and expand partnerships so more children can access life-changing devices faster, closer to home, and with dignity.”*

Appointed Advisory Board Members

Carol Kim - Chair of the Board, the founder of Shasta Advisory, a fractional Chief Strategy Officer firm specialising in organisational transformation and strategic partnership development. With executive experience spanning a Fortune 100 healthcare company, the U.S. Senate and California government at every level, and board governance experience as Chair of the Finance & Investments Committee at CIGA, Carol brings a strategy-through-execution approach to complex, mission-driven organisations. She supports 3DP4ME’s organisational readiness and public-private collaboration with deep expertise in stakeholder ecosystems and governance.

*“3DP4ME represents the kind of mission-driven innovation the world needs more of, practical and scalable solutions restoring dignity and improving healthcare access for children living through conflict. I’m honoured to join as Board Chair and look forward to working with fellow Advisory Board members to provide strategic guidance, strengthen organisational readiness, and expand public-private partnerships for long-term growth and impact,” said **Carol Kim**, Chair of the Board at 3DP4ME.*

Robert Common - Board Advisor, a board-level leader and Chief Executive with over 25 years of international experience across behavioural health, regulated services, governance, and social impact. Robert brings expertise in trauma-informed leadership, risk oversight, regulatory environments, and scaling mission-driven organisations in complex, conflict-affected contexts.

“As a psychologist and humanitarian leader with over 20 years’ experience across mental health, child protection, and systems reform, my work has focused on trauma-informed care, service innovation, and building scalable, sustainable models in complex and conflict-affected settings. I am grateful for this opportunity to contribute to this incredible

company,” said **Robert Common**, Board Advisor at 3DP4ME.

Keith Chong - Board Advisor, a market entry and commercialisation leader specialising in MedTech, HealthTech, and wellness expansion across Southeast Asia. Keith brings expertise in regulatory and commercial alignment, ecosystem building, partnerships, and translating complex healthcare technology into viable solutions with real-world adoption.

“3DP4ME is doing meaningful work at the intersection of healthcare, social impact, and 3D printing, bringing affordable, locally produced medical solutions to underserved communities. I look forward to contributing my experience in healthcare innovation, commercialisation, and ecosystem building to support the team’s mission and help scale sustainable impact globally,” said **Keith Chong**, Board Advisor at 3DP4ME.

Ashley Bird - Board Advisor, a board member and NED with over two decades leading transformation across life sciences, diagnostics, and MedTech. Ashley brings expertise in strategy alignment, culture and change, and measurable outcomes that connect people, purpose, and performance.

“As a healthcare professional, I am driven by a deep passion to make a difference for those who need access to care. Joining the board of 3DP4ME allows me to support a mission that delivers hearing aids and prosthetics to the world’s most vulnerable communities, and it is my privilege to support their journey,” said **Ashley Bird**, Board Advisor at 3DP4ME.

Ben Leung - Board Advisor, a management executive with global exposure in advanced manufacturing, electronics, engineering, and medical devices. Ben brings expertise in go-to-market execution, scalable growth, cross-border team building, and strategic partnerships to support 3DP4ME’s operational scale and delivery reach.

“3DP4ME’s impact depends on reliable delivery at scale, from production capacity to partnerships on the ground. I look forward to supporting the team with manufacturing and growth expertise so more children can access high-quality devices quickly and consistently,” said **Ben Leung**, Board Advisor at 3DP4ME.

The appointment of the Advisory Board marks an important step in 3DP4ME’s development as the organisation continues to strengthen its operational foundations, expand strategic partnerships and scale humanitarian healthcare solutions for conflict-affected communities.

About 3DP4ME

3DP4ME means “3D Printing for the Middle East,” and it operates as a US-based non-profit and innovative tech start-up delivering humanitarian healthcare solutions in the region. By combining medical expertise, local community embeddedness, and 3D printing technology, 3DP4ME helps alleviate children’s suffering and accelerates healing by removing barriers to access and delivering excellence in underserved settings. Its work has been recognised by the World Economic Forum and supported by partners including Intel and Accenture.
