Your Submitted Press Release

Cauville Sur Mer, France, 25th Mar 2026 - 3DLoc, a growing equipment rental company based in Cauville-sur-Mer, is redefining how residents and professionals in the Normandy region access tools, construction equipment, and event supplies. With a catalog of more than 300 rental references and a seamless online booking platform, 3DLoc serves customers across Le Havre, Rouen, Fecamp, and Etretat, positioning itself as the go-to rental solution in northern France.

Whether tackling a home renovation project, organizing an outdoor event, or maintaining a garden, 3DLoc offers a comprehensive selection of rental equipment designed to meet the needs of both individuals and professionals. From concrete mixers and masonry equipment to welding machines, scaffolding, tile cutters, sandblasters, and paint sprayers, 3DLoc provides professionals and DIY enthusiasts with the heavy-duty tools required for efficient project completion, without the burden of ownership, storage, or maintenance costs.

For outdoor celebrations, 3DLoc supplies marquees, inflatable bouncy castles, furniture, tableware, and accessories. Delivery and on-site installation by 3DLoc teams is available upon request, making it a reliable partner for weddings, corporate events, and private parties across Normandy. The company also offers a wide range of landscaping machines including lawn mowers, hedge trimmers, brush cutters, and soil preparation equipment, as well as on-request terrain maintenance services.

3DLoc operates from its facility in Cauville-sur-Mer, ideally situated just 15 minutes from the city center of Le Havre and the renowned cliffs of Étretat. Customers can choose between self-pickup or delivery directly to their project site. Booking is straightforward: customers browse the online catalog, submit their cart, and confirm their reservation with a 30% deposit. The balance is due on the day of collection or delivery. The company is open Monday through Friday from 8:45 AM to 6:30 PM, and on weekends from 10:00 AM to 12:30 PM, always by appointment.

3DLoc's rental model aligns with a broader shift toward the sharing economy. By renting rather than purchasing infrequently used equipment, customers reduce waste, lower their environmental footprint, and avoid the financial burden of maintaining heavy tools that may only be needed once or twice a year. 3DLoc maintains all equipment to the highest standards, ensuring reliability and performance on every rental.

The Normandy region, known for its active construction sector, rich agricultural landscape, and vibrant event culture, represents a strong market for equipment rental services. 3DLoc has positioned itself at the heart of this demand, offering local residents and businesses a practical, cost-effective alternative to purchasing or relying on large-scale national rental chains.

3DLoc is a Normandy-based equipment rental company located in Cauville-sur-Mer, serving the Le Havre, Rouen, Fécamp, and Étretat areas. Offering over 300 rental references across construction, renovation, gardening, events, and home improvement categories, 3DLoc provides both delivery and self-pickup options with convenient online booking.
