Your Submitted Press Release

Designated Local Expert (DLE) known for offering the best real estate SEO services for agents real estate, has launched the Designated Local Expert Network, the real estate industry's first-ever AI-powered real estate visibility and certification system that enables real estate agents to rank #1 on Google Maps, Google Business Profile, and on AI/LLM search engines such as ChatGPT, Google Gemini, Perplexity, Siri, Alexa, and more. The DLE Network system combines Google Business Profile management with artificial intelligence (AI) SEO tools, metadata technology, and exclusive "Mr./Ms. City" branding rights.

"If you sell real estate, you want to know how to show up in AI search results as a real estate agent, or how to rank my real estate Google Business Profile. This is your chance to get more listings and inbound clients," said Jeff Baenen, Co-founder. "Because...as you've likely seen over the last few years, success as a realtor is increasingly dependent on Google Business Profile optimization for real estate agents, local SEO for real estate agents, and other factors that are deeply technical in nature—but now well within your grasp with our automated toolset that handles AI SEO for real estate agents."

Maps SEO services for realtors

Baenen added, "With DLE Networks' Maps SEO services for realtors, you can achieve higher authority through. Let us be your realtor SEO expert. This is critical now with the advent of AI-based search. We handle LLM SEO for realtors (ChatGPT, Gemini, Perplexity) so you can rank #1 in AI/LLM recommendations."

Become "Mr. Claremont," for Example

The DLE Network enhances real estate SEO for agents by giving them the ability to brand themselves online as a local brokerage, such as "Mr. Claremont Real Estate," for example, leveraging the network's proprietary technologies. These include the MetaDLE AI SEO Engine, a multi-layer AI visibility engine that injects machine-readable metadata, JSON-LD, EXIF/XMP, and UCI Coin digital fingerprints into all agent content. The network utilizes the UCI Coin Technology, which is the first metadata coin system for real estate content that makes agents machine-recognizable across all AI, LLM, and voice search SEO for real estate agents.

AI-Powered Real Estate Designations from the Real Estate Agent SEO Company

The real estate agent SEO company offers further AI-Powered Real Estate Designations, such as:

- DOVE — Designated Online Visibility Expert
- DIME — Designated International Marketing Expert
- DLME — Designated Luxury Marketing Expert

The World's First UCI Coin Super Blog Factory Launch

DLE Network clients gain access to the UCI Coin Super Blog Factory, a national distribution engine that publishes 150,000 AI-infused real estate blogs across the U.S., each embedded with Content Identity (UCI Coin) to train Google, Maps, and LLMs to recognize you as the authority in your city. This next-generation system powers Google Maps ranking, AI search visibility, and LLM indexing for 2025–2026, creating a new standard for real estate SEO. The Super Blog Factory is purpose-built as part of DLE Network's Google Maps SEO services for realtors, giving agents unmatched digital dominance and a reason to join DLE to access this technology.
