Press Release Distribution Report

November 5, 2025

Company Name

Medesun Prime

Address 1

101, Delta Chambers, Ameerpet, above kakatiya mess parcel

Address 2

Ameerpet, chennai shopping mall backside

phone

919492021666

Email

info@medesun.com

Country

India

City

HYDERABAD

State

Telangana

Your Submitted Press Release

PMBAUSA LLC, a global leader in healthcare education and certification, proudly announces the launch of the **CAIMC® – Certified AI Medical Coder** program in collaboration with **MEDESUN Medical Coding Academy**, a pioneer in AI-driven medical coding and health information management training.

The **CAIMC® Certification** marks a paradigm shift in the evolution of medical coding. As Artificial Intelligence (AI) and Natural Language Processing (NLP) redefine healthcare data management, this credential empowers certified medical coders with advanced analytical, technical, and compliance skills essential for the modern digital healthcare ecosystem.

Bridging Medical Coding and Artificial Intelligence

AI Medical Coding integrates machine learning, deep learning, and NLP to analyze clinical documentation, automate code assignment, and enhance the accuracy of healthcare reimbursement processes. The CAIMC® curriculum provides coders with an in-depth understanding of how AI systems interpret clinical narratives, identify diagnosis and procedure codes, and ensure HIPAA-compliant data handling.

Graduates of this program learn to work alongside AI-enabled tools, validate machine-generated code suggestions, and perform quality assurance with clinical and ethical precision. The training aligns with **ICD-10-CM, CPT, HCPCS, ICD-11, and SNOMED CT**, preparing coders for the future of intelligent automation in health information management.

A Global Standard of Excellence

The CAIMC® credential is recognized by **PMBAUSA LLC**, USA, and delivered exclusively through **MEDESUN Medical Coding Academy in Hyderabad**, founded by **Dr. Meriyala Santosh Kumar Gupta**, a globally recognized authority in medical coding, auditing, and AI integration. Dr. Gupta's leadership and his record of over 45 professional certifications have made MEDESUN synonymous with innovation and excellence in healthcare education.

Empowering Certified Coders for the AI Era

In an age where healthcare organizations demand accuracy, compliance, and speed, traditional coders must evolve into **AI-aware professionals**. The CAIMC® certification bridges this skills gap, offering coders a competitive advantage in roles across the United States, UAE, India, and Europe.

Coders trained under this program gain the ability to interpret AI coding outputs, conduct NLP-based audits, and contribute to the development of AI-assisted medical coding models—skills increasingly sought after by hospitals, insurers, and health tech companies.

About PMBAUSA LLC and MEDESUN

PMBAUSA LLC is a global certification body dedicated to advancing healthcare, billing, and information management standards through specialized credentials and international collaboration.

MEDESUN Medical Coding Academy, recognized by *Forbes India* and *Outlook Business*, has trained over 25,000 professionals worldwide and continues to shape the future of AI-powered medical coding education.
