## Your Submitted Press Release

*Green Oil Solutions*, a Kentucky-based energy company focused on oil drilling and production, is pleased to announce a new round of turnkey oil investment opportunities available exclusively to **accredited investors**.

With decades of combined industry experience, Green Oil Solutions manages all aspects of the oil production lifecycle—including exploration, drilling, operations, and reporting—offering fully managed projects in established oil-producing regions.

### Key Highlights:

**Direct Participation in Producing Wells:** Investors have the opportunity to participate directly in oil well projects without managing operations.

**Potential Monthly Distributions:** Based on well performance and oil market conditions, investors may receive monthly payments.

**Tax-Advantaged Structure:** Qualifying investors may benefit from significant tax deductions through intangible drilling costs (IDCs), depreciation, and depletion allowances.

**Established Track Record:** The company operates producing wells in Kentucky and surrounding states, supported by geological data and regulatory compliance.

**Experienced Management Team:** Led by industry veterans, the team provides oversight across land acquisition, drilling execution, and production management.

*“Our goal is to simplify energy investing by providing access to institutional-grade oil projects for accredited individuals and private groups,”* said a company spokesperson. *“We handle the operations, reporting, and compliance—so our partners can focus on the long-term potential.”*

Green Oil Solutions is currently reviewing applications from **accredited investors**, including individuals, family offices, and private equity groups.

### Legal Disclaimer (Required for Compliance)

**This press release is for informational purposes only and does not constitute an offer to sell or a solicitation of an offer to buy any securities. Any investment opportunity will be made only to persons who are accredited investors under SEC Regulation D, pursuant to formal offering documents that include detailed disclosures and risk factors. Investments in oil and gas projects involve significant risk, including the potential loss of capital, and there is no guarantee of any return.**
