# Your Submitted Press Release

[KLAUS Multiparking America](#) is proud to announce a major milestone—**35 years of delivering premium mechanical and automated parking systems across the United States**. Since 1990, its trusted network of regional sales partners has served clients nationwide, building the foundation for lasting success. In 2020, these efforts were united under one umbrella with the formation of KLAUS Multiparking America, the exclusive U.S. subsidiary of KLAUS Multiparking GmbH—Germany’s pioneering parking solutions manufacturer since 1964. Together, they’ve had the privilege of shaping smarter, more space-efficient cities through engineering excellence, turnkey service, and trusted partnerships.

## A Legacy Built on German Engineering & American Vision

From the first U.S. projects in the early 1990s to today’s cutting-edge automated systems, KLAUS Multiparking America has consistently pushed the boundaries of what’s possible in parking design. Its mission has remained constant: to provide solutions that **maximize space, reduce costs, and elevate the user experience**.

Backed by more than **60 years of global expertise** from its parent company in Aitrach, Germany, they’ve proudly combined German precision engineering with deep knowledge of U.S. construction standards, municipal requirements, and real estate needs.

## 35 Years of Milestones

Over the past three and a half decades, the journey has included:

- **Thousands of parking spaces delivered** across multifamily, mixed-use, hospitality, student housing, senior living, and commercial developments.
- **Nationwide expansion** through a trusted network of regional sales and service partners.
- **Landmark projects in major markets including New York, New Jersey, Massachusetts, Pennsylvania, Virginia, Washington D.C., Ohio, Utah, California, Florida, and Georgia.**
- **Innovations in technology**—from mechanical stackers to automated puzzle and fully automatic tower systems—that future-proof developments for EV charging, smart access, and evolving vehicle trends.

## A Celebration of Partnerships

**This success is only possible because of the people who’ve been part of this journey**— clients, architects, engineers, consultants, developers, contractors, and the dedicated KLAUS teams in the U.S. and Germany.

“This milestone is a reflection of the trust our partners place in us and the passion of our team. We are proud of what we’ve achieved together and excited about the next chapter

of innovation in the U.S. market.” said [Christopher Tiessen](#), President and CEO of KLAUS Multiparking America.

## Looking Ahead

The demand for **space-efficient, sustainable, and future-ready parking** has never been greater. With new technologies like the recently launched **kVario semi-automatic puzzle system** and continued advancements in EV-ready infrastructure, KLAUS Multiparking America remains committed to leading the way for the next generation of urban development.

Follow the journey on [LinkedIn](#) and [YouTube](#) and explore how KLAUS Multiparking America can support your next project with world-class parking solutions.
