## Your Submitted Press Release

**Los Angeles, CA, United States, 26th Feb 2026** – Marketing 1on1, an [online marketing agency](#), announced the expansion of its service offerings to include digital marketing and search engine optimization (SEO) services structured specifically for delivery and courier services. The expansion takes effect in February 2026 and is available to delivery and courier companies across the United States.

The new service category consolidates local search optimization, content development, and paid digital advertising into a framework tailored to delivery and courier companies. Marketing 1on1 stated that the expansion is part of a broader initiative to develop industry-specific marketing frameworks for delivery and courier businesses.

According to the company, its [delivery and courier-focused marketing services](#) include website optimization for local search visibility, [link building](#), [Google Business Profile management](#), and the creation of informational content to support search discoverability.

Marketing 1on1 also noted that its delivery and courier companies' digital advertising services include paid search and social media campaigns aligned with how consumers research online.

“Demand for structured marketing programs for delivery and courier services has increased as consumer search behavior continues to evolve,” said Tony Sergeev, Managing Director of Marketing 1on1. “This initiative formalizes an existing area of client work into a defined service category with consistent processes.”

Marketing 1on1 reported that the expansion represents an extension of its existing digital marketing operations rather than a shift in business strategy. Services are delivered remotely and on a consultative basis, with onboarding conducted through the company's website and client onboarding channels.

### **Availability**

The delivery and courier-focused digital marketing and SEO services are available beginning February 2026 to delivery and courier businesses in the United States. Services are delivered remotely through Marketing 1on1's digital consulting and campaign management infrastructure.

### **About Marketing 1on1**

Marketing 1on1 is a digital marketing agency founded in 2012. The company provides SEO, paid search advertising, social media marketing, content marketing, and web optimization services for businesses across professional services, home services, e-commerce, and other industries.
