Your Submitted Press Release

Nebuvex CRYPTO GROUP LTD, a Colorado-incorporated cryptocurrency trading platform, today addresses recent misleading claims circulating online and reaffirms its commitment to user asset protection, operational transparency, and full regulatory compliance ahead of its Q3 2025 market launch.

Nebuvex categorically rejects recently published inaccurate claims regarding its security infrastructure and regulatory standing as completely unfounded and factually incorrect.

False Allegations Undermine User Confidence

Recent misleading statements have created confusion among prospective users, particularly in Latin American markets where Mexico's 8 million cryptocurrency traders require verifiable platform security and regulatory legitimacy. Nebuvex is actively working to clarify misinformation and protect user interests.

"User protection is non-negotiable—it is the foundation of everything we build," said Michael Anderson, CEO at Nebuvex. "These false claims undermine trust in regions where Latin American traders already face regulatory uncertainty. We have invested in Wall Street-level security infrastructure, and every security measure is independently verifiable through official channels."

Comprehensive Regulatory Compliance and Security Infrastructure

Contrary to recent inaccurate claims, Nebuvex maintains extensive regulatory registrations and independently verifiable security certifications:

Regulatory Registration and Compliance Information:

- U.S. Securities and Exchange Commission (SEC) formal registration with CIK: 0002074301, publicly verifiable via the SEC EDGAR database
- Colorado state corporate registration (State of Incorporation: CO), full compliance with U.S. federal and state legal requirements
- Internal Revenue Service (IRS) Number: 392109649
- Chief Compliance Officer Emily Thompson, former CFTC Senior Counsel, leading regulatory oversight
- SEC registration effective date: June 25, 2025 and ongoing

Security Certifications:

- FIPS 140-2 Level 3 certified Hardware Security Modules (HSM) for private key management
- Insurance coverage through Lloyd's of London protecting stored digital assets
- 95% of customer funds secured in offline cold storage with multi-signature protocols (3-of-5 key approval required)

- DDoS protection capable of defending against attacks up to 1 Tbps with 99.99% uptime targets

Verification and Transparency

Users and stakeholders can independently verify Nebuvex's regulatory information through the following channels:

- Visit the SEC EDGAR database and search for CIK: 0002074301 to review complete SEC filing documents
- Verify company registration status through the Colorado Secretary of State website (Entity ID: 20251541043)
- Contact us directly for additional verification support

Strategic Roadmap and Market Expansion

Nebuvex has quickly expanded its presence across North American and European markets while staying fully compliant with MiCA regulations in Europe. By the end of Q3 2025, the platform hit a major milestone with over 500,000 registered users in Mexico, setting the stage for further growth throughout Latin America. Protecting user assets remains at the heart of Nebuvex's business strategy.

About Nebuvex

Nebuvex CRYPTO GROUP LTD is a Colorado-incorporated cryptocurrency trading platform with formal U.S. Securities and Exchange Commission registration (SEC CIK: 0002074301) and operates from 518 Harrison Ave Unit 2019, Leadville, CO 80461. Founded by executives with previous experience at Goldman Sachs, JPMorgan Chase, and Coinbase, Nebuvex prioritizes user asset protection through independently verifiable security standards and comprehensive regulatory compliance.
